

CBM-2

REVENUE INSTRUCTIONS

INPATIENT REVENUE

For the projected actual and budget fiscal years, enter the gross inpatient revenue generated by each payor class for acute (including Hospice revenue) care and the Distinct Part Unit(s)*.

NOTE: Out-of-State Medicaid should be reported in the Medicaid payor class and DOL Black Lung should be reported in Medicare or the Other Governmental payor class as determined by the primary payor.

*The Authority no longer sets Distinct Part Unit rates. The data for the Distinct Part Units are **NOT** to be included with acute care data. The data for all of the hospital's Distinct Part Units should be combined and included under the category of "**Hospital Distinct Part Units**".
